

Sinônimos

Sigmoid

- curved
- arcuate
- concave
- sinuous
- gently curved foreset geometry
- progradational rollover geometry
- sigmoidal clinoform set
- gently concave-up reflections

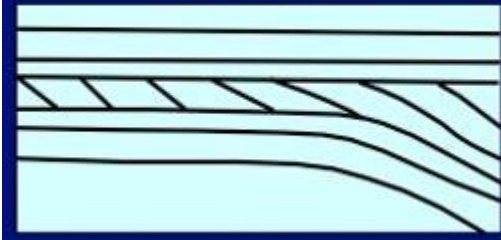

Oblique

- inclined
- tilted
- leaning
- dipping
- oblique clinoform pattern
- inclined foreset package
- dipping reflection configuration
- gently tilted reflection pattern

Shingled

Shingled

- stacked
- overlapping
- layered
- superposed
- overlapping foreset packages
- stacked depositional wedges
- layer-on-layer reflection geometry
- offlapping clinoform pattern

Subparallel

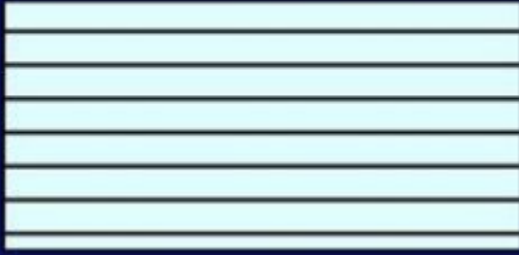

Subparallel

- nearly parallel
- semi-parallel
- quasi-parallel
- gently divergent
- almost parallel reflectors
- mildly inclined strata
- semi-parallel internal geometry
- near-parallel lamination

Parallel

Parallel - Even

- flat
- planar
- horizontal
- linear
- even
- parallel-bedded strata
- laterally uniform bedding
- even-bedded sequence

Divergent

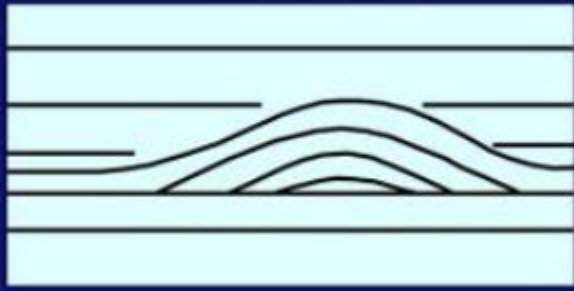

Divergent

- spreading
- opening
- outward-dipping
- diverging
- divergent foreset reflections
- expanding stratigraphic unit
- outward-spreading reflections
- divergent clinoform architecture

Mounded

Mounded

- domed
- rounded
- mounded depositional body
- dome-shaped seismic package
- reef-like seismic buildup

Deformed

Deformed

- folded
- contorted
- distorted
- deformation-related geometry
- compressional structural style
- distorted seismic facies

Hummocky

Hummocky

- irregular
- undulating
- uneven
- irregular undulating bedding
- hummocky cross-stratified pattern
- uneven depositional surface
